Jacobs' Glad-Nest
NORWALK, OHIO

1936

To Lovers of Glads, the Queen of Flowers:—

Early rains last spring boomed our planted bulblets to such a degree that we find that with the larger ones planted last spring our crop of all sizes, just dug, is so large that we have neither time nor room to plant half of them.

They are too nice to throw away, so we call on you to help us out and how to do so is explained later.

As to prices of large bulbs, the heavy propagating of many of the best later glads such as Aflame, Bagdad, Bertie Snow, Betty Nuthall, Helen Jacobs, Marmora, Picardy and others, have brought them to the lowest possible sales price of 5 cents each.

As usual we give extras with each order and would ask the buyer to name the varieties he would like as extras or as substitutes if we should happen to be out of any kind ordered.

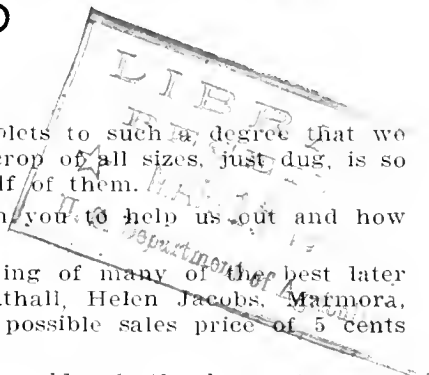

We intend to do our best to please you.

We don't claim to have the best but claim ours are as good as any.

Our firm does all the work so our bulbs are true to name; but if mistakes are made will refund money or replace with increase.

We strip and inspect every bulb 'ere shipping in the spring. We had rather keep the bulbs till about planting time so as to know their condition when planted. We have plenty good storage, keeping between 35 and 50 degrees Fahrenheit.

Order early as we sell only what we raise and many varieties are nearly sold out, especially of large sizes and our low prices will reduce small stocks in short order.

TERMS

All orders 50c or over prepaid; smaller orders add 10c for postage.

25c on account on orders under \$8.00 and \$1.00 on those over \$8.00, holds order until May 20.

We know not others' prices but do know that most of our prices are as low as others and we will meet the prices of any regular grower.

Compare our prices with others now, and our blossoms with others next summer.

We price our medium bulbs at 60%, and small bulbs at 25% of the large ones, unless otherwise priced in the lists.

In sending your order name a few substitutes and if we can will place some as extras.

We want customers, so will satisfy them if possible.

6 bulbs of one variety at the 12 rate. If wishing 12 or 25 bulbs of different varieties in the (3for10c) or (5c) list we will send them in one sack unnamed at the regular rates.

If reliable growers have lower prices than ours for any variety we will meet that price.

Those answering our dime ad with no further order will get their double value but we wish they would choose the kind from our price list.

22 packets of bulblets sent for \$1.25 with 25 or more in each packet marked pt.

Ohio customers must remember the tax.

Don't bother us with wholesale orders of large quantities.

A Large Stock of the following Varieties named causes their Prices to be:

3 Large for 10c, 5 Medium for 10c, 5 Small for 5c.

12 Large for 25c, 15 Medium for 25c, 20 Small for 5c

Our 5 centers embrace many superfine glads that—but a few years ago, cost dollars apiece, but increased so rapidly that their price decreased in the same ratio. However their intrinsic value is the same. Several of these had their large sizes sold out at our "Nest" and at the fairs.

Bagdad and Picardy are notable examples of this but medium bulbs can be had at 3 for 10c, a grand bargain.

GRAND GERMAN GLAD GEMS

The American Gladiolus Society chose Picardy as its most popular glad heading the Symposium of 50 of the most popular ones. In this latest list no grower, save Pfitzer with 15, has originated more than 4. This surely entitles him to a place by himself, which we give him below. We have all the 15, but some are not listed to increase our stock.

The numbers before each name gives its position in the Symposium in all our different lists. Here are Pfitzer's. The figures alone tell how many you can get of each size for 5c. When followed by c that tells the price of one.

Here come the best bargains for glad lovers. In nearly every variety you will find some size you can get for 5 cents. The list comprises varieties from the greatest originators in the U. S. and foreign countries.

Many of them have never been sold at this price before.

We have only the sizes marked in the different columns and in some kinds only a small number.

In this list as in the previous ones the lone figure tells how many of that size you can get for a nickel, but if followed by a (c), it tells how much one will cost.

Our good fortune is also yours. Last spring with thousands of bulblets unsold we almost dumped them in rows, each kind separate of course, expecting to get a few and then—

"The rains descended and the floods came," these floods being thousands of small, medium, and even large bulbs.

The small bulbs will be turned over to you at the rate of 20 for 10c, providing you take a dollar's worth. This dollar's worth comprises the 10 varieties marked O. Then if you wish you can, at the same rate, take one or more lots, choosing the kinds marked T. You may replace 3 kinds with others in our list.

We make another offer of 20 varieties, 10 marked O and any 10 marked T with small bulbs of each kind.

Many of these will bloom the first year.

GLADIOLUS FOR CHRISTMAS

Glad bulbs make fine Christmas gifts.

They can be sent to you, or to the donee before Christmas. Or we will send notice of the order with our price list and they can choose the kind and size from it they wish to be mailed in the spring.

FINALLY, DON'T FORGET NAMING SUBSTITUTES.
